Paths of the Order

Cybersecurity career worksheet · Req 9a · complete at home before class

Warden: _____ Lodge: _____

What to do (about 30 minutes, with a parent or guardian)

Requirement 9a asks you to find out about career opportunities in cybersecurity, name three careers, and research one of them in depth. Fill in this sheet and bring it to class. At the end of class you will tell us one specific thing you learned. Use real, current sources and write down where you found each fact.

Part 1: Three cybersecurity careers

Security analyst
Watches systems and networks for attacks.

Penetration tester
Is hired to hack into systems safely, to find weaknesses first.

Incident responder
Handles a breach and gets the organization back to normal.

Cryptographer
Designs and tests encryption.

Three careers I found (you may pick from the list or find your own):

_____

_____

_____

The one I will research:

_____

What this person does all day:

_____

_____

Part 2: Why this career might interest me

_____

_____

_____

Part 3: Research the career

Warden: _____ · Career: _____

Education and training What school, degree or training does it need?

Certifications Name at least one certificate (for example Security+) and what it proves.

Experience What experience or entry-level jobs lead to it?

Expenses What does the education, training or testing cost?

Job prospects Is the field growing? Cite your source.

Starting salary Write the number and where you found it.

Advancement What jobs could this career lead to later?

Sources I used (website name and address, or the person I interviewed)

Where to look

The U.S. Bureau of Labor Statistics Occupational Outlook Handbook (bls.gov/ooh), the CISA and NICE cybersecurity workforce pages, certification organization sites, and a parent, relative or counselor who works in technology. Do not guess at salaries or cost: write what your source says and where it came from.

In class

Be ready to tell the group one specific fact you learned. Counselor initials (Req 9a): _____
